## 1 Twenty Four (24) Deep Dive Trainings

Every other week, my team or I will do a deep dive strategy call focusing on the topics we know you'll need the most. Our team comprises the "best of the best" in the industry, so you'll have the most relevant, up-to-date tips, techniques, and strategies for your purpose work.

✦ Value: \$12,500

## 2 Twenty Four (24) Bi-Weekly Q&A Sessions

At the end of every deep dive training, we'll be doing a Q&A session so that your most burning questions get answered. Get your questions answered. (Plus, learn from the collective – getting the questions answered you didn't know you needed to ask!) We know from experience some of the best breakthroughs come from other people's questions.

✦ Value: \$5,500

## 3 Three (3) Ideas Into Action Implementation Workshop

This is a 2-day immersive training event happening 3 times a year. You can do this in person (if not, it will be streamed so you can participate virtually). We will take 2 full days to teach new content based on your specific needs three times. Content is member-driven based on where you're at. The best part is that these days are designed to get your ideas into action, and get you from vision to decision to implementation in just 2 days. This ensures you gain momentum and get results. We charged \$10,000 in the past for 3 day business training.
